MEMORANDUM FOR THE DIRECTOR

SUBJECT: [ ] Activity

1. Ben Read LDX-d the attached [ ] message to me last night (2 March) because he wanted to check the text with me prior to transmission. I called him on the green phone and proposed a change in the last sentence of paragraph 5(e) and an addition to paragraph 7. (The changes are written in ink on my text.) Both of these suggestions were accepted and the amended message was forthwith put on the wire.

2. I also sent a message to [ ] on this matter (copy attached), which I released myself only because of the lateness of the hour. Whenever possible I always have our outgoing cables released by the operating Division responsible for the Station to which the message is being sent, since I feel strongly that this is the right way to do business.
